<u> </u>

Required learning outcomes and teaching, learning and assessment methods . 1 .

understanding Knowledge and-A

That students be able to adopt scientific thinking methods in confronting -\A legal problems

Adopting harmonious methodological thinking methods and legal -YA frameworks

depth learning methods that guarantee understanding and-Adopting in -rA
application

Being able to know legal concepts - £A

Providing students with continuous nutrition of legal provisions -oA

Employing scientific skills to resolve disputes between individuals and -\A institutions

-VA

specific skills-Subject -B

related to legal administration Skills - \B

Legal representation skills - YB

Conflict resolution skills - TB

Teaching and learning methods

- Activating teaching methods that constantly develop the learner's personality and reduce dependence on the teacher
 - Realistic and conceptual learning of the principles of law -
- Using common teaching methods such as lectures, live questioning, problem solving and discussion
 - learning and adopting data shows-Activating teaching methods based on e -

Evaluation methods

- Achievement tests of various types, written, essay and objective, quarterly, including during the educational program or final
 - Observing educational activities and performance by adopting formative -

assessment based on test results
Thinking skills -C
Analysis - ۱ C
Conclusion -۲C
Organization −۳C
Critical thinking - £C
Teaching and learning methods
Various teaching methods, such as lectures, discussion, live questioning,
learning methods for students-investigation, problem solving, and self
methods Evaluation
Weekly and monthly written and oral tests
